Filing of a Notice of Appeal to the Federal Circuit and Service of Court Papers on the Commissioner of Patents and Trademarks

1. *Service of court papers*

This notice supersedes the Solicitor's Notice of Sept. 10, 1982 [1023 *Official Gazette* 3 (Oct. 5, 1982)].

Court papers may be served on the Solicitor in the following manner:

A. By hand between 8:30 A.M. and 5:00 P.M. at the Office of the Solicitor located in Crystal Plz., Bldg. No. 2, 2011 Jefferson Davis Hwy., 5th Fl., Rm. 5–C–15, Arlington, Va.

B. By mail in an envelope addressed as follows:

Office of the Solicitor
P.O. Box 15667
Arlington, Va. 22215.

Court papers mailed to an address other than the Solicitor's service address above, or hand-delivered to the Office of the Solicitor, are deemed to be served when actually received in the Office of the Solicitor.

Papers which are not court papers and are intended to be filed in the Patent and Trademark Office in connection with an application or other proceeding pending in the Office should not be mailed to the Solicitor's mail service address. Any such papers which are mailed to

the Solicitor's mail service address will not be filed in the Office and will be returned. No exceptions will be made to this policy.

2. *Filing of a notice of appeal to the Federal Circuit*

A notice of appeal from a decision of the Board of Patent Appeals and Interferences in an *ex parte* or *inter partes* patent matter or a decision of the Trademark Trial and Appeal Board in an *ex parte* or *inter partes* trademark matter must be timely filed.

A certificate of mailing under 37 CFR §1.8 *cannot* be used for the purpose of effecting "filing" of a notice of appeal to the U.S. Court of Appeals for the Federal Circuit. *In re Thrifty*, 231 USPQ 560 (Comm'r. Pat. 1986), *mandamus denied mem.*, Misc. No. 137 (Fed. Cir. Nov. 21, 1986) (unpublished). Thus, a notice of appeal which reaches the Patent and Trademark Office after the due date, is not considered to be timely filed, even though mailed prior to the due date with a certificate of mailing under 37 CFR §1.8.

A notice of appeal to the U.S. Court of Appeals for the Federal Circuit may be filed in the Patent and Trademark Office in any of the following ways:

A. By mail addressed as follows, in which case the notice of appeal must actually reach the Patent and Trademark Office by the due date:

Box 8
Commissioner of Patents and Trademarks
Washington, D.C. 20231
Attention: Office of the Solicitor

B. By "Express Mail" (U.S. Postal Service *only*) under 37 CFR §1.10 addressed as follows, in which case the notice of appeal is deemed filed on the date of the Express Mail certificate:

Box 8
Commissioner of Patents and Trademarks
Washington, D.C. 20231
Attention: Office of the Solicitor

C. By hand to the Office of the Solicitor.

A notice of appeal to the U.S. Court of Appeals for the Federal Circuit should *not* be mailed to the Solicitor's mail service address.

JOSEPH F. NAKAMURA,
June 8, 1987. *Solicitor.*

IMPROVEMENTS TO SERVICES

- *Trademark Drawings* — Effective July 1, 1987, the rule requiring that trademark drawings be limited in size to 4 inches by 4 inches will not be insisted upon for the purpose of assigning a filing date. This change is being made based on a recommendation by the Public Advisory Committee for Trademark Affairs and after consideration of the effect on Office practice.

  Drawings must still meet the other requirements of CFR §2.52 to receive a filing date. Further, the size limitation to 4 inches by 4 inches of CFR §2.52(c) must be met before the application may be approved for publication or, if the application is on the Supplemental Register, for registration. It is strongly recommended that applicants attempt to comply with the size requirement at the time of filing to expedite the examination and registration process.

HELPFUL HINTS

- *Improving Accuracy and Speed of Routing of Patent Application Related Papers* — To improve the accuracy and speed of routing patent application-related papers, all papers must contain, at a minimum, the serial number of the application. Additionally, the word "Patent" should be in the upper right hand corner and the filing date, inventors' names and title of the invention should be included on the paper.

  Responses to Notices of Incomplete Application and Notices to File Missing Parts must be accompanied by a copy of the Notice form. Otherwise, the response may not be matched to the appropriate application in a timely manner.

- *Return of Original Assignment Documents* — Some assignment documents are being filed with applications for patents without a transmittal letter attached to the assignment. Therefore, no address is available for return of the original assignment document by the Assignment Branch.

  A transmittal letter that contains the firm's name and address must be attached to each assignment document filed to ensure accurate return of assignment documents.

June 9, 1987.

THERESA A. BRELSFORD,
Assistant Commissioner
for Administration.

Reference Collections of U.S. Patents Available for Public Use in Patent Depository Libraries

The following libraries, designated as Patent Depository Libraries, receive current issues of U.S. Patents and maintain collections of earlier issued patents. The scope of these collections varies from library to library, ranging from patents of only recent years to all or most of the patents issued since 1790.

These patent collections are open to public use and each of the Patent Depository Libraries, in addition, offers the publications of the U.S. Patent Classification System (e.g. The Manual of Classification, Index to the U.S. Patent Classification, Classification Definitions, etc.) and provides technical staff assistance in their use to aid the public in gaining effective access to information contained in patents. With one exception, as noted in the table following, the collections are organized in patent number sequence.

Facilities for making paper copies from either microfilm in reader-printers or from the bound volumes in paper-to-paper copies are generally provided for a fee.

Owing to variations in the scope of patent collections among the Patent Depository Libraries and in their hours of service to the public, anyone contemplating use of the patents at a particular library is advised to contact that library, in advance, about its collection and hours, so as to avert possible inconvenience.

MARKS PUBLISHED FOR OPPOSITION

The following marks are published in compliance with section 12(a) of the Trademark Act of 1946. Applications for the registration of marks in more than one class have been filed as provided in section 30 of said act as amended by Public Law 772, 87th Congress, approved Oct. 9, 1962, 76 Stat. 769. Opposition under section 13 may be filed within thirty days of the date of this publication. See rules 2.101 to 2.105.

A separate fee of two hundred dollars for opposing each mark in each class must accompany the opposition.

SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

SECTION 2.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).
